

Information about cookies and their use

In accordance with the provisions of Section 89 of Act No. 127/2005 Coll., on Electronic Communications, we hereby inform you that our website uses so-called cookies for its activities. Cookies are small text files that our servers send to your computer to enable better use of our servers and their content to be tailored to your needs and preferences. Cookies are used by almost every website in the world. Cookies are generally useful because they increase the user-friendliness of a repeatedly visited website. If you use the same computer and the same internet browser to visit our website, cookies help your computer remember the pages you visit and your preferred settings for each site.

Types of cookies

We use different types of cookies on our website:

- **Strictly necessary cookies** - allow the user to navigate and use the site
- **Analytical cookies** – allow us to track aggregate information about site traffic and the use of various features. This helps us improve our websites to better serve you. Analytical cookies are set by third parties (Google Analytics).
- **Functional cookies** - remember your choice in order to improve your experience when using the website, such as the last language version used

What do we use cookies for?

For statistical recording, traffic measurement and network security

Each time you visit our website, the analysis software stores anonymous cookies. These help to determine how many users come to our site repeatedly. This helps us better understand how users behave on our site, what they prefer and what interests them. We also use Google Analytics for these purposes. Details of this tool can be found here: <https://www.google.com/analytics/>

In any case, we do not use cookies for other than technical purposes, we do not associate the data obtained thanks to the cookies with any other data and we manage cookies in such a way that it is not possible to identify specific persons through them.

Cookies management settings and disabling cookies storage in browsers

Common Internet browsers (Internet Explorer, Mozilla Firefox, Google Chrome, Edge, etc.) support the management of cookies and allow you to disable the use of cookies in their settings. Within the browser settings, you can manually delete, block or completely prohibit the use of individual cookies, or block or allow them only for certain websites. For more detailed information, please use your browser's help.
